✓ Wide Range of Disability-Related Topics
✓ Outdoor Adaptive Sports Demonstration

Caribe Royale All-Suite Hotel and Convention Center
Orlando, Florida
Dear Family Café Attendees:

Welcome to the 17th Annual Family Café and Summit on Disabilities. We are committed to providing every family the opportunity to live the American dream. That’s why we are committed to making life changing investments that will create more opportunities for all Floridians to get a great education and choose the course of learning that best meets their needs.

Every individual should have the opportunity to get a great job and education, regardless of the challenges they may face. That is why we announced a proposed investment of $8 million to enroll all individuals with critical needs from the waiting list to the Developmental Disabilities Medicaid Waiver Program. These families can now receive services to improve their loved one’s quality of life and gain skills to help them find a job. This is the second year in a row that funding is provided to remove all individuals with critical needs from the waiting list.

Every great job begins with a great education, and I am committed to supporting families’ efforts to help their loved ones find jobs by increasing opportunities for job training skills for individuals with disabilities. Our proposed 2015-2016 “KEEP FLORIDA WORKING” budget also recommends an increase of $5 million, for a total of $23.4 million, for personal learning scholarship accounts for eligible K-12 students with disabilities. This funding will provide beneficial services such as tuition and fees for instructional services, private tutoring, curriculum, and other specialized learning services.

We are making Florida the global leader for businesses and job creation. We will build on the success of the past four years and keep working every day to provide Florida families with a business climate that generates more opportunities today and for the next generation. Thank you for helping Floridians with disabilities grow and prosper in their own communities. I wish you a successful and informative conference.

Sincerely,

Rick Scott
Governor
Dear Family Café Attendees,
Welcome to Orlando and The 17th Annual Family Café!

The Annual Family Café is a three-day statewide event that has been meeting the need for information and networking among people with disabilities and/or special health care needs and their families here in Florida since 1998. The Family Café Planning Committee, which is comprised of self-advocates, family members, fellow non-profits and state agency partners, plays a central role in planning The Annual Family Café. It is our mission to provide you and your family with an opportunity for Collaboration, Advocacy, Friendship and Empowerment in a family-centered environment!

We are excited to be here at the Caribe Royale this year! Those of you that are long-time attendees of The Family Café may recall being here in 2005 and 2006. The Caribe is a great location, and we’re pleased to be back. We hope you have an opportunity to take advantage of everything it has to offer.

This year marks the 25th anniversary of the Americans with Disabilities Act, and we are planning on using this year’s Annual Family Café as an occasion to celebrate all of the progress people with disabilities have made since the ADA was signed in 1990. In that spirit, Friday’s Keynote will feature Rebecca Cokley of the National Council on Disability. She will talk about how the ADA came about, and what today’s leaders can do to further the movement. Sunday’s Keynote will include a screening of Lives Worth Living, a remarkable documentary that shares the story of the disability rights movement in the words of those who lived it.

One of the big challenges for the next twenty-five years of the ADA will be employment, and we’re excited to place a focus on jobs and careers for people with disabilities at this year’s event. The Saturday Keynote will feature Randy Lewis, former Senior Vice President at Walgreen’s. He will share the story of how he led an effort to create two distribution centers that use an inclusive and integrated workforce composed of 40% persons with disabilities. Our emphasis on employment will also extend to the Exhibit Hall, where the Employment Expo will allow attendees to work on their job-seeking skills and get connected with employment resources.

Of course, The 17th Annual Family Café will include all of the information and resources that have made it such a success over the years. There will be a wide range of breakout sessions on a number of subjects, with a number of those sessions organized into “tracks.” They include Military Families, Smart Money, Mental Health, Employment, Disaster Preparedness, Advocacy, Youth, Recreation, and Birth to Age Five. The tracked sessions are indicated by special graphics in the program. We also have a full Exhibit Hall with dozens of booths, including a host of self-advocate owned and operated Micro-Enterprises.

We’re also continuing our tradition of hosting the Annual Governor’s Summit on Disabilities on Friday evening. There will be a special recorded message for Family Café attendees from Governor Scott, and State Senator Bill Galvano will be on hand to discuss the eventful 2015 legislative session and how the State of Florida supports people with disabilities.

There’s a lot going on this weekend, and we sincerely hope that your participation in The 17th Annual Family Café leaves you feeling informed, educated and empowered. As always, please let us know if there is anything we can do to serve you better!

Yours,
The Family Café Planning Committee
June 7, 2013

Dear Annual Family Café Attendee:

Welcome to the 15th Annual Family Café and Summit on Disabilities in Orlando. On behalf of Governor Rick Scott and the Florida Agency for Persons with Disabilities, I want to encourage you to make the most of this conference and the educational opportunities that are provided here.

Florida’s Agency for Persons with Disabilities is committed to helping people with developmental disabilities live, learn, and work in their communities. The agency serves about 50,000 people with spina bifida, autism, intellectual disabilities, cerebral palsy, Down syndrome, and Prader-Willi syndrome.

The Family Café offers people with disabilities and their families a welcoming environment to educate themselves about resources that are available in Florida to meet their needs. Families and organizations must work together to come up with viable solutions to meet everyone’s needs in these difficult economic times. APD has an online Resource Directory at APDcares.org which also may offer solutions when government resources are not available. Stop by the APD booth for more details.

Throughout this conference, you will have opportunities to discuss with other people your challenges, experiences, and solutions. There will be providers and exhibitors that may have valuable information to benefit you, so take advantage of the educational atmosphere at this conference. Again, I hope you enjoy your time at the conference!

Sincerely,

Barbara Palmer
Director

---

March 30, 2012

Dear Family Café Participant,

Welcome to the 17th Annual Family Café. The Agency for Health Care Administration is thrilled once again to participate in this event. The event provides an exceptional opportunity to educate the more than 290,000 individuals with disabilities, and their families, throughout the state, about the new system of community-based services.

Our Agency staff look forward to participating in this event every year, sharing new information and valuable resources with the attendees of the Medicaid program. Please take the opportunity to participate in our workshops on the new system of community-based services and stop by our event booth to obtain valuable information.

On behalf of the Agency for Health Care Administration, I welcome you and your family to the 17th Annual Family Café.

Sincerely,

Elizabeth Frazell
Commissioner
June 5, 2015

Dear Family Café Attendees,

Welcome to the 17th Annual Family Café and Summit on Disabilities. The CareerSource Florida network is proud of its partnerships and community participation in this expanding event, which helps to advance our mission to connect employers with qualified, skilled talent and Floridians with employment and career development opportunities to achieve economic prosperity.

Led by state and local business leaders, the CareerSource Florida network consists of a statewide workforce policy and investment board, the Florida Department of Economic Opportunity, 24 regional workforce boards and nearly 100 career centers where job seekers can get training, employment and career assistance. Our innovative programs connect local training providers with unique industries or target employers to hire.

We all benefit when Floridians who want a job get one and become more self-sufficient. If you are looking for employment or if you are an employer looking to hire, we hope you will take advantage of the expertise and resources available at this conference or contact the CareerSource Florida centers in your community for help with your employment and training needs.

Best wishes for a productive and enjoyable conference.

Sincerely,

Chris Hart IV
President and CEO

June 3, 2015

Dear Conference Attendee,

Welcome to the 17th Annual Family Café Conference and Summit on Disabilities! This year’s conference has brought together a wide array of information and connects these individual, families, advocates, employers, non-profits, service providers, and individuals with disabilities. You will find useful, informative, empowering, and engaging programs that have been developed through the Florida Department of Education and its partners. These programs are available at no cost and can be used by schools, employers, job seekers, and individuals with disabilities.

Family Café is one of the many ways we assist parents to be more involved in their children’s education and help students with disabilities to achieve their dreams. We hope over the next three days you will find opportunities to make new friendships, as well as find new information and resources you can take home with you.

Sincerely,

Fred Stover
Commissioner

The 17th Annual Family Café
Dear Conference Attendees:

On behalf of the Florida Division of Vocational Rehabilitation (FDR), I welcome you to the 17th Annual Family Café. I hope you find the keynote speaker and breakout sessions interesting and informative.

Let me tell you a little about VR. VR is a federal-state program that works with people who have physical or mental disabilities to help them get or keep a job. VR is the state’s employment program for people with disabilities, and we are committed to helping them find meaningful work.

At the Family Café, you will have an opportunity to hear from people with disabilities and their families, including VR. We hope you find this information useful and helpful to your daily lives.

Our staff will be making presentations during the conference about the different programs we offer, including the Transition Program – Transition to Work, Supported Employment, and Back-to-Work through the Social Security Administration. We also have a booth where you can talk to a VR counselor and learn more about how we can assist you and your family.

This year’s conference promises to be among the most exciting yet. Participate, engage, listen, and enjoy it.

Sincerely,

Dear Family Café Participants:

As Florida’s Surgeon General and Secretary of Health, I am pleased to welcome you to the 17th Annual Family Café Conference. In an atmosphere of fun and education, this event provides a unique venue for families with special abilities and their families to learn about education, health, and other activities. The event features a variety of educational programs and informative sessions that will help you in building family wellness.

The Florida Department of Health offers several programs that support the needs of individuals with special abilities. We are fortunate to enjoy a shared partnership with the Family Café. Together, we work to identify and address the unique needs of all people in the Department of Health by offering resources and support.

Make the most of your visit to the conference.

Sincerely,

[Office of the State Health]
Dear Family Café Participants:

The Florida Division of Emergency Management recognizes the importance of building resilient communities, thus creating an environment to support individuals or families living with a disability. Partnerships between emergency management, the private sector, and nongovernmental organizations allow for ideas sharing for all phases of emergency management.

The first step to preparing for a disaster is taking the time to build a family emergency plan. I encourage you to explore all the valuable information available during this event and take steps at home to apply these tips to your everyday life. You can find additional resources on the Division’s new preparedness website at www.FLGetABPlan.com. Information on the new Florida Special Needs Registry can be found on the website. Be sure to register yourself or your family member who may need additional assistance responding to an evacuation order or sheltering during a disaster.

Children are encouraged to play a role in disaster planning. The Division continues to expand our children’s program Kids Get A Plan with new online games and educational books. Go to www.KidsGetABPlan.com to build a disaster supply kit, a family emergency plan, and to learn how to mitigate against disasters.

Working together we can help ALL Floridians Get A Plan, and make Florida the best state in the nation to work, live and play.

Sincerely,

Bryan W. Koon
Director
Division of Emergency Management

——

Dear Friends of the Family Café,

The WellCare and Staywell Health Plan, have been serving disabled Floridians for more than 25 years. During that time, we have built an understanding of the needs and challenges faced by families and friends who care for them.

We are working with The Family Café and other organizations that represent individuals with a spectrum of disabilities. Recently, we launched our national Toll-Free Community Assistance Line which is staffed by individuals with disabilities. This line is open to the individuals and families living with disabilities, in addition to the needs and challenges faced by family and friends who care for them.

The WellCare and Staywell Health Plan, have been serving disabled Floridians for more than 25 years. During that time, we have built an understanding of the needs and challenges faced by families and friends who care for them.

As in previous years, our 100 WellCare and Staywell employees will be on site volunteering to make this year’s conference a success. We invite you to stop by and volunteer to make this year’s conference a success. We invite you to stop by and volunteer to make this year’s conference a success.

Thank you for allowing us to be a part of this fun and memorable event.

Sincerely,

Greg McElroy
State President

CELEBRATION OF THE 25TH ANNIVERSARY OF THE ADA

The theme of the event this year is the Celebration of the 25th Anniversary of the Americans with Disabilities Act. Ms. Rebecca Cokley will speak to the role of the National Council on Disability from its establishment, to the crafting of the ADA, and lay out a vision for the next generation of leaders, the ADA generation. The focus of her presentation is to acknowledge the role that young leaders have played in the movement since its inception, and how spaces like The Family Café can help elevate those leaders to the next level and help support family members to be allies.

“You have the power. You have the responsibility to make the dream live for all”.

— Justin Dart
Early Steps, Early Wishes Playgroup

Friday
1:30 - 4:30
Hibiscus

The fifth annual Early Steps Early Wishes event is a special workshop/playgroup specifically for families in the CMS Early Steps program. During this three hour workshop/playgroup, families wander from one activity to the next, learning and having fun with their children. Included in this workshop/playgroup will be an opportunity to have a family photo, as well as make a frame for the photo; free books and an opportunity to adapt them for your child; face painting; a table of toys easily made from household items; movement activities and parachute play; and an opportunity to learn how to advocate for your child and other children with special needs. Early Steps families will meet their local Family Resource Specialist, as well as Early Steps State Office staff and statewide resources that are available. Join us and start off The Family Cafe with information that will help you to get the most out of this conference.

Special Needs ... Caring for Loved Ones Under Unique Circumstances

Friday
1:30 - 2:30
Antigua 1 & 2

Gain insight into the many issues you may face as a caregiver for special needs persons. Discover how government programs may pay for basic living expenses if certain conditions are met; and, careful planning is in place. Examine some of the steps you can take to make sure your special needs loved ones have the lifestyle you prefer -- during your life and after your death.

Transition: The Big Picture

Friday
1:30 - 2:30
Antigua 3 & 4

The transition process through public school levels and the transition process from public school to postsecondary education and training are responsibilities shared among students, their family members, educators, and community resources. Transition discussions should begin early and be based upon data/evidence related to the student’s big picture goals and should lead to postsecondary education/training. It is incumbent upon everyone to understand the student’s disability, documenting the disability, identifying the student’s strengths and challenges, and determining the best educational/training formats for the student. We hope this workshop will assist you as you plan your future goals to fulfill your dreams.

Human Trafficking
Friday
1:30 - 2:30
Boca I

Human trafficking is modern-day slavery and it is happening right here in the United States. Florida is ranked third in the nation for potential human trafficking cases. The Agency for Persons with Disabilities presents a training on what human trafficking is, how to identify a victim, and how you can make a difference in your community.

Intro and Brief History of Special Education
Friday
1:30 - 2:30
Boca II

Today, every child with a disability in the United States has a right to a free, appropriate, public education. But that has not always been the case. How did we get to where we are now? In this perennial favorite, Dr. Metty describes the process and hardships endured by parents and their children with disabilities to secure the educational rights many take for granted today.

The Exceptional Education State Advisory Committee - What is it and How Can it Provide Information to your Representative?
Friday
1:30 - 2:30
Boca III

The Individuals with Disabilities Education Improvement Act (IDEA) of 2004 requires that states establish and maintain an advisory committee for the purpose of providing policy guidance with special education and related services for children with disabilities in the state. Please join us to learn more about the State Advisory Committee (SAC) and how you can provide input to your representatives.

Updated Guidelines for the Care of Students with Diabetes in Florida Schools

Friday
1:30 - 2:30
Boca IV

Legislation passed in Florida in 2010 to prohibit school districts from restricting the assignment of a student who has diabetes to a particular school on the basis that the student has diabetes, that the school does not have a full-time nurse, or that the school does not have trained diabetes personnel. The 2010 legislation required the State Board of Education, in cooperation with the Florida Department of Health, to adopt rules for the management and care of students with diabetes and to develop technical assistance and resources for training school personnel.

Friday
1:30 - 2:30
Boca V

Adequately preparing for life after high school requires active family involvement and planning. This presentation will introduce participants to a short guide that was developed to help families to plan with their child for a future career that is aligned with his/her strengths and interests, and provides an overview of community and online resources to help families to prepare their child for success. Attendees will receive a copy of Start Exploring Now for Tomorrow: A Family Guide for Vocational Planning, and will explore activities to help children learn more about careers, improve job-related skills, and better understand their own preferences.

Self Determination—A Path to Success (A Panel Discussion)

Friday
1:30 - 2:30
Boca VI

The path to self-determination takes many paths. This panel will discuss the challenges and successes of three individuals who have encountered ups and downs along the way and will share what has worked best for them in their path to self-determination. The panel will also discuss the importance of trusting relationships with service providers and how to use the iBudget waiver funds to meet changing needs. The road to self-determination is always under construction!
**Disability Rights Florida—Helping to Get What You Need**

Friday  
1:30 - 2:30  
Boca VII

Need an advocate to investigate abuse or neglect? Need help with an equal access or discrimination problem? Want to become a stronger self-advocate? Disability Rights Florida assists people with disabilities with a variety of problems and in a variety of ways. If an agency has denied you a right or service of accommodation, you need to know about Disability Rights Florida. If you need help with inclusion or employment, you need to know about Disability Rights Florida. Come learn and get a refresher course in self-advocacy skills.

Calling All Advocates: Partners in Policymaking Wants You!
Friday
1:30 - 2:30
Bonaire 1

Come learn about the Florida Developmental Disabilities Council’s advocacy program, Partners in Policymaking. Partners is a leadership training program that helps individuals with developmental disabilities and family members learn how to work with policymakers to improve the lives of persons with disabilities. Based on a national model, the Partners’ goal is to develop productive partnerships between the people who need services and those who make policy regarding those services. Partners participants learn from nationally-recognized speakers on topics such as navigating the state and federal legislative process. If you want to be a leader in your community or improve your advocacy skills, Partners may be for you!

Delegate Roundtable: Mental Health
Friday
1:30 - 2:30
Bonaire 3

One of the best ways for people that are new to a situation to become educated about their options is to speak with someone that has “been there” and “done that.” This year at The 17th Annual Family Cafe, The Delegates will be hosting roundtable conversations where attendees can network with other attendees to share experiences and strategies that have worked for them. If you are a person with a mental health need or a family member, or if you have a particular challenge your family is facing, this session may provide the support and guidance you need. This roundtable session will be dedicated to Mental Health. Sessions on Down Syndrome, Cerebral Palsy and Autism will also be held.

**FAAST 101—Presentation on FAAST**
Friday  
1:30 - 2:30  
Bonaire 4

FAAST (the Florida Alliance for Assistive Services and Technology), a non-profit organization sponsored by the Florida Department of Education/Division of Vocational Rehabilitation and the State of Florida, has one mission. That mission is to improve the quality of life for all Floridians with disabilities through advocacy and awareness activities that increase access to and acquisition of assistive services and technology. FAAST values each individual’s right to achieve their highest potential and the possibilities that can be realized through collaborative efforts focused on the goal of improving life for Floridians with and without disabilities.

**Making it Fun—Incorporating Play and Learning for Your Preschooler**
Friday  
1:30 - 2:30  
Bonaire 5

This workshop will show parents ways to incorporate fun into learning. Parents will learn how to make a magic wand and lead their children on imaginative journeys. From going on a scavenger hunt in the backyard to writing letters with shaving cream, the fun is happening.

**Just for Dads**
Friday  
1:30 - 2:30  
Bonaire 6

Many times dads play the support help while mom does the talking. This happens during IEP’s and doctor visits. We don’t always have the chance to share our thoughts. This is your chance to share and learn from other dads.

Empathy and Autism Spectrum Disorders: How Do We Express It?
Friday  
1:30 - 2:30  
Bonaire 7

People with autism spectrum disorders are often portrayed in the media as lacking empathy towards other people. Yet, many individuals with autism do exhibit strong feelings of empathy, even if they express those feelings differently than their non-autistic counterparts. In this presentation, listen to two individuals with autism as they share how they express empathy towards the world and discuss the many ways that people with autism express those emotions. In addition, they will explain how some people with autism may be just as empathetic as people without autism, even if they express those emotions differently.

Reducing Inflammation Through Foods
Friday  
1:30 - 2:30  
Caribbean Ballroom I

Find out which foods can help reduce inflammation and boost your immune system. Learn my Z-tips on successful lifestyle changes to incorporate the new foods. When inflammation is out of control, it can affect the whole body and damage it with ailments such as arthritis or psoriasis. Additionally, it can lead to obesity, heart disease and even cancer. Luckily there are foods that can help reduce inflammation and bring the body back to balance. In this workshop we will focus on anti-inflammatory diet and how to make it easy and achievable.

Tactile/Hands-on Disaster Preparedness Evacuation Planning and Kit Building for Persons with Disabilities, on a Low Budget, Through Recycling and Free Items
Friday
1:30 - 2:30
Curacao 2

We will cover how to build, through the use of hands-on materials, an evacuation disaster kit and how to plan for disasters year round. We will teach you how to think outside of the box, to use recycling and free items you already have in your house in your disaster evacuation kit. In this session you will learn how to reuse items you have that are lost, forgotten, and abandoned within your house. You will also learn how to use items you can get for free to add to your disaster evacuation kit and learn how to plan for a disaster in the event you have to evacuate or if you have to shelter in place. This session will leave you thinking about all the free items you use and acquire daily.

Inspiration and Encouragement for Military and Veteran Families with Special Needs
Friday
1:30 - 2:30
Curacao 3

The Rev. Robert E. Streater, III, MA (U.S. Army Veteran) offers words of encouragement through personal stories and biblical truths, inspiration and encouragement for Active Military and Veteran Families with special needs. The audience will explore tools to help them deal with transition issues such as post traumatic stress, financial hardships, wounded relationships, and raising a child with special needs. Custom designed from the perspectives of both a military service person and a parent with a child with special needs, this insightful workshop not only offers encouragement to military families, but also includes suggestions on how others can provide support.

Getting Hired: A Job-Seeker’s Guide to Navigating the Hiring Process
Friday
1:30 - 2:30
Curacao 4

This presentation will focus on empowering individuals as they go through the employment process, as well as equip the attendees with the basic knowledge to be prepared to handle any barriers during the hiring process. There will be detailed discussions on requesting accommodations for an interview, website accessibility issues with pre-employment testing and applications, how to request accommodations for online applications and tests, what information a person has to disclose during the interview process, and how being employed will affect government subsidies, etc.

Calling 911—Be Prepared
Friday
1:30 - 2:30
Curacao 5

Being a parent/caregiver of loved ones with complex medical needs is often overwhelming in the best of times. I have been a foster/adoptive parent of children with complex, global special needs for 35 years. As most parents in this position, we have established a reasonably predictable daily juggling routine. However, when medical crises arise, usually in the middle of the night, our relatively stable schedule can crash with potentially serious consequences. In this presentation, participants will learn how keeping comprehensive vital information can make these medical crises easier for everyone involved. I have developed chronological forms and checklists over the years to efficiently put all professionals on the same page. We will discuss how this preparation is critical to the maximum clinical outcome for our loved ones. Informational forms will be examined and a dialogue encouraged to determine how these forms can be adapted and/or added to for specific individual needs.

A Journey Towards Listening and Spoken Language for a Baby Born with a Hearing Loss
Friday
1:30 - 2:30
Curacao 8

Based on Early Steps’ New Star Training: A Family’s Guide to Navigating Early Steps, Module 2, Family Resource Specialist, Alex DeMolina will share her story of having a baby girl born with a hearing loss. Alex’s daughter, Kiersta, was diagnosed with a severe-to-profound bilateral sensorineural hearing loss at just 4 weeks old. Join Alex as she discusses her decision to pursue listening and spoken language for her daughter utilizing early intervention services and cochlear implants. Find out exactly what a cochlear implant is and how it works from co-presenter, Virgi Mills.

Grant Seeking To Advance Your Cause
Friday
3:00 - 4:00
Antigua 3 & 4

Grant Seeking—it’s all about using focused research to advance your cause! As a Non-Profit Organization (NPO) with 501(c)(3) status, are you aware of the opportunities for seeking grants to advance your cause, where to start researching, and how to begin the project? Come learn how to advance your cause with focused research. Examples from the speaker’s background experience will include the following subjects: Anti-Human Trafficking, Animal Welfare, Arts/Health Programming, Hunger, Equine Rescue, and Disabilities. Handout will be provided for attendees. Please bring your “cause” to focus on the research necessary to work through advancing your projects!

Resumé Writing—How to Get Your Resumé Noticed
Friday
3:00 - 4:00
Boca I

Throughout your career, you must be able to summarize your work history, outline your skills, and emphasize the knowledge, skills and abilities (KSA’s) you have that qualify you for future work. Without the ability to create a qualified, professional resume, your career might reach a dead-end. Resume writing is important for making the transition from school to the workforce. Your ability to transfer learning to actual demonstrations of your skills and knowledge in a work environment should be part of your description of your capabilities and qualifications in a resume. Your future in the working world depends on it. After the workshop you can go down to the Exhibit Hall and learn about the tools you can use to write that resume that gets noticed.

Varied Instruction for Multiple Learning Styles

Friday
3:00 - 4:00
Boca II

What is “intelligence?” It’s not so easy to define, because different people learn in different ways. Every child is different, but every child can learn. In this interactive presentation, Dr. Metty surveys the multiple ways that students experience the world, leading to a discussion of methods of differentiating instruction to best meet the needs of all students in the classroom.

Handwriting and Disability: Two Perspectives from The Inside

Friday
3:00 - 4:00
Boca IV

Prepare for surprises! In this presentation, listen to two adults with autism spectrum disorders discuss their “lives with handwriting” their struggles to master this skill, and self-remediation strategies that empowered them to pursue careers as handwriting tutors for people with disabilities who experience struggles with handwriting. The perspectives of two self-advocates, approaching handwriting issues from differing directions raises the question: how can handwriting instruction become more disability-friendly?

Living with Epilepsy and Seizure Disorders

Friday
3:00 - 4:00
Bonaire 1

Living with epilepsy and seizure disorders can be challenging. Understanding your condition, including the latest research advances, and learning how to find and use the various resources available to you can empower individuals with epilepsy and their families. We will also share how to advocate for your (or your loved one’s) rights in the areas of education, employment, housing, healthcare, and other aspects of dealing with seizure disorders.

Developing a Trauma Informed System of Care using System of Care Values—
The Whole Child Leon-PACT Partnership Experience
Friday
3:00 - 4:00
Bonaire 3

In this presentation we will discuss why the development of a trauma-informed system of care is important to a community, and how to develop it around the system of care values of being family driven, youth-guided, community-based and culturally and linguistically competent. A discussion of the development of the Whole Child Leon-PACT Partnership will provide a real life experience of developing a strengths-based system of service provision and family empowerment, that by its very nature is a trauma-informed system of care.

Delegate Roundtable: Cerebral Palsy
Friday
3:00 - 4:00
Bonaire 4

One of the best ways for people that are new to a situation to become educated about their options is to speak with someone that has “been there” and “done that.” This year at The 17th Annual Family Café, the Delegates will be hosting roundtable conversations where parents can network with other parents to share experiences and strategies that have worked for them. If you are new to parenting a child with a disability, or if you have a particular challenge your family is facing, this session may provide the support and guidance you need.

This roundtable session will be dedicated to Cerebral Palsy. Sessions on Autism, Down Syndrome, and Mental Health will also be held.

Traveling the Seas of Emotions
Friday
3:00 - 4:00
Bonaire 5

Traveling the Seas of Families, Feelings, & Emotions is part of an interactive training series created by parents of children with disabilities and special health care needs, to help other families understand and participate fully in Florida’s Early Intervention System. The trainings are designed for one-on-one participation with a trainer or participation in a small group workshop setting. Traveling the Seas of Families, Feelings & Emotions explores how families react, feel, and cope upon learning of and living with their child’s disability or developmental delay. Our hope is that this workshop will assist parents and families in coping with the emotional uncertainties to build stronger bonds with their child(ren) and each other.
Know When to Hold ‘em, Know When to Fold ‘em

Friday
3:00 - 4:00
Bonaire 6

As a person with disabilities it is often difficult to know when we should do things on our own, and when we should ask for help. The older we get, the more we learn to advocate for ourselves, but sometimes we still need to seek support. Over this past year, I learned some hard lessons about holding and folding. During this session we will have an honest discussion about knowing when to hold ‘em (self-advocacy) and knowing when to fold ‘em (asking for help).

“What About My Other Child?” Tips for Supporting and Including Typically-Developing Siblings

Friday
3:00 - 4:00
Bonaire 7

After dealing with late school buses, IEP meetings, therapies, transition planning, and special dietary food prep, families are often exhausted trying to support their child with special needs. But what happens to the typically-developing siblings when so much is going on? What is their role in all this? Join this interactive session to learn strategies for ensuring all children are receiving the support they need, plus gain insight (from a sib herself!) on how to include typically-developing siblings in the daily activities of their brothers and sisters with special needs.

Disability Sensitivity

Friday
3:00 - 4:00
Bonaire 8

Have you ever been curious what it’s like to have someone else’s disability? Though we can’t all walk a mile in someone else’s shoes, we can try to experience what they might be going through. In this session, The FYC will look at a few different disabilities and try to explain the difficulties a broad range of people may have. The audience is encouraged to participate so we can all learn from each other!
Chinese Medicine 101
Friday
3:00 - 4:00
Caribbean Ballroom I

This powerpoint presentation will give basic information on Traditional Chinese Medicine and how it helps with a variety of common problems that affect those with disabilities and those that live with and care for them.

Multi-Sensory Gym: Exercise that Engages
Friday
3:00 - 4:00
Curacao 1

My presentation teaches participants that exercise is good for our health but also offers valuable learning and growth opportunities. By using the benefit of the senses, children and adults with sensory deficits build important skills, make significant gains in improved motor and brain function, and at the same time learn to appreciate movement. I will share important and interesting information on fitness, multisensory exercise and how to build a valuable multi-sensory exercise routine in less than 15 minutes a day. Demonstrations will be provided during the presentation, along with video clips showing examples of multi-sensory exercise activities being used with persons with challenges.

Emergency Preparedness: What Others Don’t Talk About!
Friday
3:00 - 4:00
Curacao 2

It is easy to find emergency preparedness education that discusses shelters, food, water and so forth for persons with disabilities. What isn’t easy to find is education that addresses back-up plans and resources for daily living needs. Yet the discussion must cover such topics as medical hardware/software supplies, back-up communication plans, alternative resources, and important vital comfort issues. Using “reverse engineering thought,” be prepared to learn how to create a plan that is more inclusive of disability, specifically from a former caregiver’s first hand point of view and experiences.

Participants will learn about the Interstate Compact on Educational Opportunity for Military Children. The Compact was developed in an effort to reduce the educational and emotional issues encountered when children of military personnel transfer from schools in one state to schools in another. It addresses the difference in requirements among states involving immunizations, the entrance ages for kindergarten and first grade, exit exams, and graduation requirements. It also includes provisions dealing with participating in extracurricular activities, course placement, enrollment in highly capable challenging programs, and other issues unique to the transitioning military family.

The Florida Division of Vocational Rehabilitation can provide eligible secondary education students with a variety of services designed to lead to a meaningful career. Let VR help you create a picture of where you are today and set goals for your future. Services are individually designed but may include pre-employment training opportunities, work experiences, job placement, post-secondary education, and other services necessary for a successful employment outcome. With the advent of recent legislation, The Workforce Innovation and Opportunity Act, VR will have an enhanced ability to serve high school students.

Do you enjoy taking pictures? Did you know the camera functions like your EYE? See for yourself with this special camera! This will be an interactive session as much as possible. Bring your camera, or cell phone camera. You will learn about your camera and how to take great photos. You will also judge some photos and learn about lighting, shadows, clutter and Hat Tricks with your camera. Should be fun; don’t forget your camera!!!!

**Different is NOT a Disability**

Friday  
3:00 - 4:00  
Curacao 6

My name is Shavaughn Barnes. I am a teacher of students with many different abilities. My passion is reminding my people that everyone can learn. Even though we may have to do things a different way, we can all succeed at anything we put our minds too. Join me to participate in activities, to get to know some new friends, and to be reminded being different is not a disability.

**Part II: Your Winning Ticket: Making Work Pay—Understanding Vocational Rehabilitation, Social Security, Medicare, and Medicaid**

Friday  
3:00 - 4:00  
Curacao 7

In this session we will discuss the options for gaining employment for persons with disabilities and how earned income impacts SSDI, SSI, Medicare, Medicaid, and Medicaid Waivers. Experts from Vocational Rehabilitation and DCF/ACCESS will discuss how benefits are impacted and how the use of trusts can maintain Medicaid eligibility. The session will also discuss the importance of partnerships and collaboration in navigating the complex state and federal systems with the ultimate goal of making you a more effective advocate and advisor. This session will increase your ability to advise and plan for the future of your consumers by helping you to understand how the same employment earnings impact each type of public benefit differently.

**Unlocking the Mystery—Guardian Advocacy and Special Needs Trusts**

Friday
4:30 - 5:30
Antigua 1 & 2

This informative workshop is designed for parents, guardians, and advocates of individuals with special needs. Attorneys Peggy Hoyt and Sarah AuMiller will discuss the importance of legal and estate planning for families with special needs. A family member with special needs creates an added layer of complexity to estate planning—the need for advanced trust planning and guardianship. In this workshop, you will learn the basics of special needs trusts—both first party and third party trusts, including why they are important for protecting government benefit eligibility and providing lifetime protection for vulnerable individuals. We will also explore both guardianship and guardian advocacy, when each is appropriate and why they are essential for the protection of your loved ones.

**Choosing the Right Residential Program**

Friday
4:30 - 5:30
Antigua 3 & 4

Choosing the right residential program can be a challenge for individuals with intellectual/developmental disabilities and their families. This presentation will provide suggestions for ways to prepare for some level of independent living, and information regarding a unique independent living skills assessment program: LIFE Experience. In addition, information on a variety of residential options will be presented along with a discussion regarding how to determine which setting will be most appropriate. Options to be discussed include supported living, group homes, independent living, and...
Have you ever wondered, “What steps do I need to take to achieve my American Dream?” Perhaps you want to buy a TV, go on vacation, own a home, go to college, have a job you love, start and own your own business, or save income from work to retire with a positive quality of life. Although there is no single strategy or solution to achieve your American Dream, there are steps you can take and tools you can use to help you achieve your goals. This session will help you with tools you can use to help you achieve your American Dream.

Legislation passed in Florida in 2014 repealed the special diploma statute as of July 1, 2015, and required that options be provided for all students to earn a standard diploma. New legislation also required parental approval of their child’s graduation option and postsecondary goals. In this session we will discuss the legislation and related rules passed by the State Board of Education and provide information on the new standard diploma options for students, including those with significant cognitive disabilities, as well as the new parental approval requirements.
Wandering and elopement is one of the leading causes of death for individuals with cognitive disorders such as Alzheimer’s and autism. Too often I hear about missing children with autism and elderly adults, most often ending tragically. We at Project Lifesaver International felt there was a need to bring in technology that would not only help locate a lost individual but prevent the wandering incident as it occurs.

Statistics reveal that the vast majority of individuals with developmental disabilities will be the victims of abuse, neglect, and/or exploitation at some point during their lives. In this presentation we will explore the factors behind the alarming prevalence of such crimes committed against this population, identify common characteristics of perpetrators, provide tips for detecting and reporting the signs and symptoms of potential maltreatment, and offer concrete safety and prevention strategies that parents, caregivers, and self-advocates can implement immediately. An overview of the Agency’s Zero Tolerance Initiative to End Abuse, Neglect, and Exploitation against Floridians with Developmental Disabilities will also be provided.

This session will provide information on Fair Housing laws including state, federal, and local regulations. Come learn about your rights in housing as a person with a disability, or as the caregiver. This session will provide information on what housing providers must allow and what they may deny when asking for reasonable accommodations and/or reasonable modifications in housing. This is great for any family.
Whether you are currently seeking new housing, renting, or own your own home, you are guaranteed to learn something new about Fair Housing laws!

**Current Trends in Massage and Manual Therapies**
Friday
4:30 - 5:30
Boca VII

This presentation is for individuals with disabilities and caregivers. We will highlight current trends and best practices for Massage and Manual Therapies. Physical, emotional, and behavioral supports can benefit from touch therapies. Pain management regimens may benefit from non-pharmaceutical interventions. We will look at a variety of topics including research, practice, and a variety of techniques, including some for self-care. Additional modalities for consideration include: aromatherapy, micro e-stim, and CranioSacral Therapy. We will also address finding a qualified therapist, what to expect during a massage and learn some basics of hands-on practices.

**Raising a Child Based on Their Abilities Versus Their Disability**
Friday
4:30 - 5:30
Boca VIII

Lou Fioritto has been blind since birth. His parents taught him to focus on his strengths versus his weaknesses and how to turn a perceived weakness into strength. He and his wife, Joyce, own Braille Works International, headquartered in Seffner, FL, with close to 100 employees. Lou will assist you in understanding how imperative it is to prepare a child to focus on their abilities for success in adulthood.

**How to Start and Run a Successful Self-Advocacy Organization**
Friday
4:30 - 5:30
Bonaire 1

This presentation will discuss how to successfully start and run a self-advocacy group. Members from each of the 14 grassroots self-advocacy groups that make-up the statewide self-advocacy organization, FL Self-Advocates Network’d (FL SAND), will show you the ins and outs of running their local groups and a statewide self-advocacy organization. If you have ever wanted to start a self-advocacy organization, or
want to get more involved, this presentation will give you pointers on how to get started, how to build membership, how to fundraise, and most importantly, how to unite your voices to accomplish common goals!

**Mental Illness: It Can Happen to Anyone**  
Friday  
4:30 - 5:30  
Bonaire 3

The speaker will present her personal journey through childhood trauma, psychiatric hospitalizations, and incarceration, to their current stable and productive life. While many mental illnesses show symptoms early in one’s life, this story demonstrates what can happen when symptoms and crises happen to someone in their 40’s. Most importantly, it highlights the power of hope, recovery, and resiliency.

**Delegate Roundtable: Down Syndrome**  
Friday  
4:30 - 5:30  
Bonaire 4

One of the best ways for people that are new to a situation to become educated about their options is to speak with someone that has “been there” and “done that.” This year at the 17th Annual Family Café, the Delegates will be hosting roundtable conversations where parents can network with other parents to share experiences and strategies that have worked for them. If you are new to parenting a child with a disability, or if you have a particular challenge your family is facing, this session may provide the support and guidance you need.
This roundtable session will be dedicated to Down Syndrome. Sessions on Autism, Cerebral Palsy, and Mental Health will also be held.

Sailing Through Transition  
Friday  
4:30 - 5:30  
Bonaire 5

My child is turning three and leaving the Early Steps program. Now what’s going to happen? What are my options? Where and how does my child receive services? What steps do I need to take to ensure the best for my child? If you find yourself asking these questions, then this workshop is for you. Family Resource Specialists Sue Loftis, Laura Mainor, and Sandy Reid will do their very best to answer these questions for you. This workshop, part of the New Star training series, was written by and for families. Through parent-to-parent support, we can help one another.

Part of My Brain Died—What is Your Excuse?  
Friday  
4:30 - 5:30  
Bonaire 6

Brain injury is the leading cause of death and disability in children and adults from ages 1 to 44. The statistics are overwhelming.

- There are 2 million Traumatic Brain Injuries each year (one every 15 seconds)
- 500,000 of these injuries require hospital admission
- Every 5 minutes someone dies from a head injury

This will be a hard look at traumatic and acquired brain injuries by a brain injury survivor. It will be factual and fun (humor is one of the best ways that Howard knows of to cope). Howard Moon is a survivor who will talk about life after a brain injury. With the proper knowledge and the proper attitude you can get a new life after your injury.

IEP Rights for Young Adults
Friday
4:30 - 5:30
Bonaire 7

Your IEP: Be a part of it! Self-determination is important for all human beings. It is especially important for students with special needs as you consider the future you want and how your educational choices will shape that future. Understanding your rights and responsibilities will help you to become informed and active participants in your own educational planning. We recommend parents and students attend together.

Sonic Acupuncture
Friday
4:30 - 5:30
Caribbean Ballroom I

Get a double dose of healing as two healing modalities come together to balance and harmonize your energy.

Acupuncture and Sound Healing combined, allows your body to balance in a way that it could not do with just either one. The use of a few acupuncture points will open your body’s energy field and will allow you to balance in whatever way you need. The sound healing through drumming and other instruments will help you journey inward to your heart center. These ancient techniques in a group energy environment enhance everyone’s meditative state and healing. LIMITED TO 15 PEOPLE

APD’s Billy Joe Rish Park—A Park for People with Disabilities
Friday
4:30 - 5:30
Curacao 1

Participants will enjoy learning about the Agency for Persons with Disabilities’ 98 acre beach park located on the Gulf of Mexico at Cape San Blas, which was built specifically for persons with disabilities and their families. The park recently received $1.4 million in 2013 and hopes to have another $3.5 million by the end of session 2014. Participants will learn how this money will be used to enhance the park’s access and features. More importantly, participants will learn about how they and their groups can have fun in the sun and on the beach without barriers.

How To Prepare for Disasters
Friday
4:30 - 5:30
Curacao 2

Do you have a plan? Disasters can strike at any time. This presentation will help you make a plan, get the right supplies, and identify steps you and your family can take to help minimize risks to known hazards. Being prepared increases your personal sense of security and peace of mind knowing you will be ready in case of an emergency.

Interstate Compact for Educational Opportunity for Military Children
Friday
4:30 - 5:30
Curacao 3

Participants will learn about the Interstate Compact on Educational Opportunity for Military Children. The Compact was developed in an effort to reduce the educational and emotional issues encountered when children of military personnel transfer from schools in one state to schools in another. It addresses the difference in requirements among states involving immunizations, the entrance ages for kindergarten and first grade, exit exams, and graduation requirements. It also includes provisions dealing with participating in extracurricular activities, course placement, enrollment in highly capable challenging programs, and other issues unique to the transitioning military family.

**Toward Inclusive Work Opportunities: Implications of the CMS HCBS Settings Regulation for Employment Services**
Friday
4:30 - 5:30
Curacao 4

Even in its second year of implementation, there are more questions than answers in response to the Centers for Medicare & Medicaid Services’ 2014 regulation defining acceptable and unacceptable settings for home and community-based services. Given the regulation’s inclusion of nonresidential settings, states and stakeholders also are considering how to transition their employment and day service-provision systems into compliance—a move that may promise greater focus and investment in integration and inclusion. This new regulation may have a profound impact on employment services. This session will explore the potential impact, state policymaking to date, and how to influence implementation.

**A Comprehensive/Family-Centered Approach to Serving Persons with Disabilities**
Friday
4:30 - 5:30
Curacao 5

The presentation will provide an overview of the Ecological Approach to providing services which looks at the individual, family, and community resources and needs. There will be a discussion about how these levels relate to thinking about the array of supports and services an individual and family may need to flourish. Issues will be presented and discussed concerning why and how this conceptual approach to services is beneficial for individuals, families, and service providers. There will be a brief discussion about positive parenting considerations, especially with regard to how these factors tie in with this comprehensive, family-centered approach. There will also be a discussion of the recognition and incorporation of this broader model and positive parenting techniques that result in a win/win for families and service providers.

**Moms to Moms**
Friday
4:30 - 5:30
Curacao 6

When we are together as mothers sharing our experience as parents of children with special needs, it feels good! We can empathize and be compassionate to each other and our unique situation. Overtly, we have something in common (our children). We can also learn, laugh, and build friendships. Here is your opportunity to experience all that is mentioned above. We invite you to join us for an interactive, informal, relaxing conversation. Let’s talk about experiences and concerns of interest to you!
Be Prepared
Have a Family Emergency Plan

An emergency or disaster may present unique challenges for people with disabilities or access and functional needs. Assess your capabilities, as well as your needs, and create a plan that will ensure your safety in case of a disaster or emergency.

Check List
☐ Build a Disaster Supply Kit
☐ Identify a Support Network
☐ Complete an Emergency Health Card (EHC)
☐ Communicate needs and capabilities with my support network
☐ Arrange an out-of-town contact
☐ Stay informed on local disaster procedures
☐ Develop plan for service animals and / or family pets

Disaster Supply Kit
☐ Water (1 gallon per person per day)
☐ Non-Perishable Food (3 day supply)
☐ Manual can opener
☐ Flashlight and batteries
☐ Battery operated or hand crank radio
☐ NOAA weather radio
☐ First aid kit
☐ At least two week’s supply of medication, medical supplies used regularly and a list of allergies
☐ Information about where you receive medication, the name of the drug and dosage.
☐ Medical records and primary care physician contact information
☐ List of the style, serial number and manufacturer information of needed medical devices
☐ Service animal I.D., veterinary records and proof of ownership
☐ Supplies for your service animal

Improving Your “Neural GPS”—A Guided Approach to Balance and Vision Training
Friday
4:30 - 5:30
Curacao 8

A Vision Therapy program developed and applied at the USAF Academy (and with numerous collegiate and professional ballsport teams) will be taught to train the body’s main balance center (the eyes) for improved peripheral vision, acuity and integration. A series of natural eye movement and focus techniques (Far and Near Gaze and Balance Reset) will be offered with dynamic stability applications to enhance visual concentration, fixation, and eye movement. These techniques lead to better balance center integration of the inner ear and improved coordination of vision to create fluid, balanced movement. This approach is exceptionally helpful to facilitate safe and secure integration and pattern recognition/repetition of specific motor and cognitive skill movements. Typically, the earlier someone receives this type of therapeutic intervention the better; youth with Down Syndrome and others with difficulties in movement and motor planning have been shown to significantly benefit from the drills demonstrated in this sensory movement process.

5:30 p.m. to 5:45 p.m.    Brazilian Voices, Boca Foyer
6:00 p.m. to 8:00 p.m.    The 17th Annual Summit on Disabilities, Caribbean Ballroom
Please plan on joining us for The 17th Annual Governor’s Summit on Disabilities on Friday evening! This year’s Summit will be led by State Senator Bill Galvano, who represents District 26, and sits on a number of important Senate Committees that impact the lives of Floridians with disabilities, including Appropriations, the Education Appropriations Subcommittee, Pre-K-12 Education, and Health Policy, as well as the Joint Legislative Budget Commission. He is a long-time advocate for people with disabilities and supporter of The Family Café, and he will be able to offer insight into the eventful 2015 Legislative Session, and share a legislative perspective on Florida’s disability policy. Sen. Galvano will be joined by representatives from a range of State Agencies that will be able to answer specific questions on their various programs.

Although he is not able to attend in person, Governor Rick Scott has recorded a special message for Family Café attendees, and the Summit will open with his comments.

The 17th Annual Governor’s Summit on Disabilities promises to be both informative and memorable. The Family Café is committed to creating opportunities for individuals with disabilities to connect with policy makers and elected leaders. We believe that engagement between people with disabilities and those that set the policies that profoundly impact their lives is essential, and we hope you take advantage of this great opportunity to have your voice heard at The 17th Annual Governor’s Summit on Disabilities!

The 17th Annual Governor’s Summit on Disabilities will feature a musical performance by Staar Fields, singer/songwriter and parent of a child with autism. For more information, visit staarfields.com.
As Senior Vice President, Randy Lewis presided over Walgreens’ logistics network for 16 years as the chain grew from 1,500 stores to over 8,000. He was also instrumental in introducing a new concept to Walgreens that would transform its distribution centers and employment opportunities. Walgreens’ two most recent distribution centers employ an inclusive and integrated workforce composed 40% of persons with disabilities (PWDs) who are held to the same work standards and earn the same pay as “typically-abled” fellow workers. It has moved to all centers across the country, which now employ over 1,000 PWD’s, and is being introduced into its stores in communities throughout America.

Mr. Lewis will tell the story of how this all came together and the lessons learned—how the most optimistic expectations can be exceeded when people act together for a common good. This is a story of how compassion can move mountains, that greatness is within us all and more importantly, to remind us that we all underestimate our power to impact our world. The first 200 attendees will receive a complimentary copy of Mr. Lewis’ award-winning novel, No Greatness without Goodness.
Celebration of Life: Experiencing the Healing Power of Love
Saturday
11:00 - 12:30
Caribbean Ballroom I

Give yourself the gift of community and ceremony to heal, transform and celebrate the lives of our loved ones who have passed away. This year, as we step into this sacred place of celebration, we will be joined by the renowned Brazilian Voices, a female vocalist group from South Florida, and Jeff Deen, renowned drummer for wellness and father of a child with a disability. Their healing words and drumming vibrations will permeate the room as you go on a guided imagery journey to your own Sacred Garden. In your Sacred Garden you will let go of any misunderstandings about yourself and your loved one’s death; you will experience the healing effects of the power of universal love. The “Tree Of Life” ceremonial bowl will be brought forth as we recognize each person who has gifted our lives with their love. An expressive arts experience will connect us to our own hearts, the hearts of our loved ones and globally.

Dr. Paula Petry will co-facilitate the session with expressive arts Dana Pezoldt. Paula will share her personal journey back to wholeness after the death of her daughter, Alexandra. Her in-depth studies of mind, body, spirit healing modalities will give great insights into death and afterlife. Hand-made mementos will be available for everyone attending.

The Celebration of Life Ceremony began in 2012 with the loss of a member of our Florida Youth Council, Ms. Lizzy Barrows. Each year the ceremony varies as we continue to honor all families who have experienced a loss over time. Military families of children with special needs will be specially recognized for their service and courage as they are a continual witness of loss.

Benefits and Tax Savings for Families with Special Needs
Saturday
11:00 - 12:00
Antigua 1 & 2

Parents of children with special needs incur a variety of expenses for their child or adult, including therapies, educational training, tutoring, personal care aides, transportation, home modifications, and medical supplies. Many of these expenses may be tax deductible, but are often overlooked by tax professionals who are unfamiliar with the types and categorization of qualified expenses. These unique tax benefits may entitle parents to additional refunds. Learn how to identify these often missed tax deductions, and other tools available to save on your family’s federal and state income tax. Includes an overview of Life Planning tools for the most protected future for your child, including information on public benefits, trusts, guardianship, Medicaid, and SSI.

How to Use iPad/iPhone Accessibility Features: A Beginner’s Course
Saturday
11:00 - 12:00
Antigua 3 & 4

iPads and iPhones come equipped with a large assortment of built-in accessibility features. Just knowing what these features are and how to turn them on can sometimes be a challenge in itself. In the session, participants will explore the many built-in features available on iDevices that improve access for visual, auditory, accessibility shortcuts, voice over, voice control, dictation, switch control, keyboard access and shortcuts, and more. Participants are encouraged to bring their own device and explore features during the session.

Delegate Roundtable: Spina Bifida
Saturday
11:00 - 12:00
Boca I

This roundtable will serve as a time where families can share and chat with other families about experiences related to Spina Bifida. Those in attendance will be encouraged to discuss information that they feel is important for others in the Spina Bifida community to know. Resources, events, and organizations which are helpful to those with Spina Bifida will be present. Everyone impacted by Spina Bifida is encouraged to attend. Come and make some new friends! This roundtable session will be dedicated to families impacted by Spina Bifida.

Orlando, FL 32801
Sensory Learning for Students with Visual Impairments and Additional Disabilities
Saturday
11:00 - 12:00
Boca II

This session will discuss assessment and instructional strategies specific to children with vision loss and additional disabilities such as intellectual, physical impairments, autism, etc. The Sensory Learning Kit is a research-based assessment and curriculum designed for students functioning under the cognitive age of two. Published by the American Printing House for the Blind, the Sensory Learning Kit is an assessment tool used to determine the student’s preferred sensory “appetites” that the teacher and/or parents can use to facilitate learning. Individual learning routines are designed to facilitate the student’s ability to communicate their wants and needs, move with purpose, anticipate events, and participate meaningfully in their daily activities.

Including Students Who Use AT/AAC Across the School Community: Ideas and Resources Across the Grades
Saturday
11:00 - 12:00
Boca III

Inclusion of students who require AT/AAC presents unique opportunities for students and educators, although it does take thoughtful and proactive planning. Linda Starnes, former special educator, will present strategies to be utilized in classroom settings and across the school community. Information and encouragement will be provided through research and resources spanning all grade levels. From first steps incorporating students into a new class, to full engagement in class and school activities, benefits will be realized in welcoming those with communication differences.

Self-Advocacy Movement: Past, Present, and Future
Saturday
11:00 - 12:00
Boca IV

This presentation shows how we have progressed since the days of institutions and where we’re going in the future. We will also highlight how to get there and why we need to continue to advocate for our rights. Tricia Riccardi and Amanda Baker have been strong self-advocates for many years and will educate you on how you can join the advocacy movement.

Tricia Riccardi    Amanda Baker
1912 Pontoon Plantation    (850) 763-5624
Meet Dr. Monica Verra-Tirado, Chief, Bureau of Exceptional Education and Student Services, Florida Department of Education
Saturday
11:00 - 12:00
Boca V

Dr. Verra-Tirado will provide participants with an update on the latest initiatives and activities of the Bureau, which administers education programs for students with disabilities, coordinates student services throughout the state, and participates in multiple inter-agency efforts designed to strengthen the quality and variety of services available to students with special needs.

Service Dogs in School—What Does the Law Say?
Saturday
11:00 - 12:00
Boca VII

Service animals assist students in their daily lives and in accessing their school environment. Service animals can foster independence and allow students with disabilities to access the least restrictive environment. Parents need to know the requirements under the law in allowing service animals on the school campus and on school provided transportation. This presentation will cover the law and advocacy strategies to assist families in advocating for access for the student and service dog to the school campus. This presentation will allow for open dialogue between the presenter and participants.

Inspiration and Encouragement for Military and Veteran Families with Special Needs

Saturday
11:00 - 12:00
Boca VIII

The Rev. Robert E. Streater, III, MA (U.S. Army Veteran) offers words of encouragement through personal stories and biblical truths, inspiration and encouragement for Active Military and Veteran Families with special needs. The audience will explore tools to help them deal with transition issues such as post traumatic stress, financial hardships, wounded relationships, and raising a child with special needs. Custom-designed from the perspectives of both a military service person and a parent with a child with special needs, this insightful workshop not only offers encouragement to military families, but also includes suggestions on how others can provide support.

Getting on the Path to Success

Saturday
11:00 - 12:00
Bonaire 1

We all have had personal fights or fights for children with disabilities, but what if there are ways you can lessen the fight. There are things that you can start doing and stop doing as parents/guardians. Thomas Moon will be sharing his story of overcoming obstacles. He will share how his parents empowered him to be independent and successful. They fought the hard fight and never gave up. All of our children are important. Parents are the first and best advocates. Make sure you come hear Thomas Moon as he shares how you can help get them on that better path toward success.

Meet the Blind Services and Vocational Rehabilitation Directors

Saturday
11:00 - 12:00
Bonaire 2

During this session, attendees will learn about the services that are available to customers with disabilities to help them become gainfully employed and live independently. Robert Lee Doyle III is the Director of the Division of Blind Services (DBS) as of July 15, 2013. As director, he oversees services to individuals who are blind or visually impaired through 10 district offices, the Rehabilitation Center for the Blind, the Braille and Talking Books Library, and local community rehabilitation programs. The division serves Floridians of all ages, from babies to senior citizens.

The 17th Annual Family Café
Sensory Dysfunction: Making Connections in Real World Settings
Saturday
11:00 - 12:00
Bonaire 3

Does your loved one have difficulties with loud sounds, new environments, processing information that is presented to them, or trying new foods? This presentation will discuss Sensory Processing Disorder (SPD) and explain what it is, what it looks like, who it affects, and how it can be treated. The presenters will discuss the applications of applied behavior analysis which have been used to help increase quality of life goals for individuals that have difficulties with trying new foods, sleeping in their own beds, entering environments that are loud or unknown, and exploring their environment through touch.

New Horizon Loan Program
Saturday
11:00 - 12:00
Bonaire 4

The New Horizon Loan Program is an alternative assistive technology finance program under the Assistive Technology Act of 2004, Section 4(e)(2)(A) designed to assist individuals with disabilities to borrow money at reasonable interest rates for the purchase of assistive technologies. Our New Horizon Business Loan Program is a similar program that can assist qualified persons with disabilities who are seeking employment through self-employment opportunities. These are low interest rate loan programs that may offer below market interest rates that can help keep your loan payment low along with no prepayment penalty features. The NHL Program offers a user-friendly loan application, which requires a qualifying credit and debt to income criteria review before we can proceed to a loan closing for the assistive technology that you need. In addition, the NHL Program staff offers unique consumer responsive services not often found through more traditional lenders.

Recycled Toy Ideas and High Tech Tools for Infants and Toddlers
Saturday
11:00 - 12:00
Bonaire 5

Presented by an Early Steps Family Resource Specialist, this workshop will show you some easy low-tech ideas to help your developing infant or toddler using everyday items around your home and creating items by recycling. We will also share some of the ideas and fascination of using high-tech tools (such as the iPad) with your child, in addition to the cautions and concerns of using these items too much with children under the age of three.

The John McKay Scholarship for Students with Disabilities
Saturday
11:00 - 12:00
Bonaire 6

The Department of Education’s Office of Independent Education and Parental Choice will present information about the John M. McKay Scholarship Program for Students with Disabilities. This program was established to provide Florida parents and students with educational options and operates under the premise that parents should make decisions regarding their child’s education. The program offers student-directed funding and parent-directed choices. This presentation will include eligibility requirements, participation statistics, and requirements for private schools, public school districts, and parent/student responsibility.

Siblings in Treatment: Last But Not Least
Saturday
11:00 - 12:00
Bonaire 7

Behavior analytic treatment is intensive and involved, requiring ongoing commitment by caregivers. We, as behavior analysts, work with families to establish treatment goals for the child in need. Unfortunately, the needs of siblings take a secondary role, and are often not included in treatment goals moving forward. This presentation discusses how to include siblings as primary stakeholders in the treatment process while ensuring that the quality of life for all members of the family is nurtured and improved.

People with disabilities can participate and enjoy recreation with their family and friends. Each person has different interests and activities that inspire and motivate them. Regular physical activity has been shown to diminish the risks and effects of many health problems associated with a sedentary lifestyle including obesity, as well as the loss of lean muscle tissue and bone mass. The important mental, social, and emotional benefits will also be discussed. Learn about the value of active leisure! This session will provide information on why, how, and where to participate in a variety of active leisure options. You won’t want to miss the excitement of the many options available to you.

Employment First Florida
Saturday
11:00 - 12:00
Curacao 4

Employment First is a declaration of both philosophy and policy stating that integrated employment, including supported employment, customized employment, and self-employment, where an individual is paid by an employer at minimum wage or greater or receives earnings through one’s self-employment business that is fully integrated in the community workforce is the first and preferred priority outcome for individuals with disabilities. Florida’s collaborative efforts have led to broader work on Employment First among the State’s agencies and organizations charged with improving employment outcomes for all individuals with disabilities. This presentation will discuss the accomplishments and next steps of the Employment First Initiative in Florida and how local agencies and individuals can become involved.

Cradle to Grave 2015: Legal & Financial Issues for Your Child with Special Needs
Saturday
11:00 - 12:00
Curacao 6

This session will cover the 100-year plan; pre-need guardianship, guardianship, guardian advocate, and special needs trusts; qualifying for both Medicaid and Medicare; the easy way to meet the annual reporting requirements for SSI and Guardianship; and maximizing your child’s lifetime income. SSI money for minor children is based on the income of the parents, but at 18, the qualifications are based upon the income of the child. Also, the child can qualify to collect 50% of the parent’s social security once the parent starts drawing social security and the amount increases to 75% upon the death of the parent.

Dr. Jess W. Levins, Esq, CMA, CFM, P.E.
Levins & Associates LLC
8637 Pegasus Drive
Lehigh Acres, FL 33971
Saturday  
11:00 - 12:00  
Curacao 7

In this session we will discuss the employment of persons with disabilities and the impact of employment on Social Security benefits, Medicare, Medicaid, and Medicaid waivers. We will provide updates to the programs including Partnership Plus and upcoming changes. Experts from Vocational Rehabilitation and DCF/ACCESS will discuss how benefits are affected and can be maintained through Ticket to Work, SSI and SSDI employment support programs, and the use of trusts for maintaining Medicaid eligibility, all in plain and understandable language.

Bio-energetics: Light, Sound, and Magnetics in Integrative Therapy
Saturday  
11:00 - 12:00  
Curacao 8

Energy medicine, or bioenergetic medicine is a healing model gaining more appreciation based on advances in scientific measurement of the acupuncture meridian system (where life energy, or chi, flows through the body along energy channels called meridians). Most of these therapies use photonemission (light) electrical, magnetic, sonic/harmonic/percussive, acoustic, microwave, or infrared to screen for/treat health conditions through the detection and correction of imbalances in the body’s energy fields. Many are quite simple as they involve self-regulation of posture after brief episodes of exposure that can inspire healthcare providers to become therapeutic co-facilitators with the recipient of the treatment. In nonscientific jargon, this talk will convey and demonstrate hands-on participants can take away a solid knowledge base practicalities about these therapies so of how these approaches can interact with tissues and organ systems to promote healing and pain relief.

**The ABCs & 123s of SNTs**
Saturday  
1:00 - 2:00  
Antigua 1 & 2

What is a Special Needs Trust (SNT) and why should families consider creating one? A Special Needs Trust is created to protect resources for an individual with a disability. Contrary to popular belief, Special Needs Trusts can be easy and affordable. Attendees will learn about the various types of SNTs and how they can preserve the valuable benefits for our loved one with a disability. Attendees will learn of cost-effective ways to establish these trusts and provide for a sound, reliable plan to look after their financial legacy for their special family member.

Delegate Roundtable: Autism
Saturday
1:00 - 2:00
Boca I

One of the best ways for people that are new to a situation to become educated about their options is to speak with someone that has “been there” and “done that.” This year at The 17th Annual Family Café, the Delegates will be hosting roundtable conversations where attendees can network with other attendees to share experiences and strategies that have worked for them. If you are new to parenting a child with a disability, or if you have a particular challenge your family is facing, this session may provide the support and guidance you need.

This roundtable session will be dedicated to Autism. Sessions on Down Syndrome, Cerebral Palsy and Mental Health will also be held.

Social Security—Part of Your Plan for “Someday”
Saturday
1:00 - 2:00
Boca II

Do you receive Social Security disability (SSDI), Supplemental Security Income (SSI) benefits, or want to plan ahead for retirement? The Social Security Administration’s presentation, including discussions on incentives to return to work and online services, is for you! Learn how returning to work could affect your benefits and how work incentives, such as the Ticket to Work and the Plan to Achieve Self-Support, can help you return to work while still receiving benefits (if you meet program requirements). We will also discuss how a personalized “my Social Security” account and our other online services can help you plan for your “someday.”

Parents, Practitioners, Self-Advocates: Partnerships for Positive Outcomes
Saturday
1:00 - 2:00
Boca III

Partnerships between parents, educators, therapists, and other practitioners, along with students with disabilities, is key to positive educational outcomes for students. It is incumbent on the IEP team to determine and acquire the most appropriate educational supports and services for students, and to refine these decisions as students’ needs change. Too many times as they approach the IEP table, parents feel the need to “arm themselves for battle,” and educators prepare for “defensive measures.” This workshop will focus on how-to’s of building strong partnerships for positive outcomes, with strategies from the perspective of both a seasoned practitioner and veteran parent.

A Self-Advocate’s Guide to Dating and Relationships
Saturday
1:00 - 2:00
Boca IV

In this presentation we hope to help you navigate that very difficult thing called dating, marriage, and the possibility of kids. Tricia and Marshall have been married for 10 years and have a baby girl. Rebecca has been dating her boyfriend for a year-and-a-half. As strong self-advocates they balance a fulfilling family life and hope to guide you in your journey.

Logging Your Journey: Getting Organized and Communicating Effectively to Maximize Your Child’s Potential
Saturday
1:00 - 2:00
Boca V

This workshop will inspire you to get organized and take control of the mountains of paperwork that come along with having a child with special needs. We will share strategies and explain record-keeping systems to help with these challenges. We will discuss information to help you better communicate your wants and needs to those providing services for your child. Participants will receive materials to help with getting organized. A Family Resource Specialist will be available to translate this session into Spanish.

It's Those Wonderful Rights (Spanish)
Saturday
1:00 - 2:00
Boca VI

Los caracteres de la pelicula clasica navideno “It’s a Wonderful Life”, “Es una Vida Maravillosa” nos ayudan a presenter este taller divertido e interactivo sobre las Garantias de Procedimientos, escrito por la ley IDEA, la cual protegê los derechos de los padres y los estudiantes con respeto a las provisiones de una Educacion Publica Gratuita y Apropiada (FAPE)

Con los derechos vienen las responsabilidades y tender el entendimiento de sus derechos y responsabilidades les ayudara a usted estar mas informado, y ser un participante active en el proceso de educacion especial de su nino.
When the Team Can’t Come to Consensus, What’s Next?
Saturday
1:00 - 2:00
Boca VII

Miscommunications can often lead to IEP breakdown. It can be very difficult dealing with the intricacies of negotiating such a sensitive area. Parents need to understand how to resolve disagreements and the benefit of mediation as a tool for conflict resolution. Due Process is not always a viable solution. This presentation will cover how to work toward resolving disagreements between the parent and the school. We will also address informal conflict resolution and mediation, State Complaints, Office of Civil Rights Complaints, and Due Process Hearings. This presentation will allow for open dialogue between presenter and participants.

Color Your World with Sound Health
Saturday
1:00 - 2:00
Boca VIII

This presentation represents a culmination of over 25 years of restoring and recovering from Traumatic Brain injuries and other traumas to reveal a work of a combination of healing arts for brain balance and wellness. In the process of working with patients, students, and community members, it became obvious my struggles were not in vain. My unique purpose began to unfold in service to those around me. I was given the opportunity to work with people of all ages, very young to over 105! In each instance I saw something very positive taking place. Even scientific research shows how each of these elements of the healing arts feeds, supports and enhances the brain/body connection for better functioning. Even responsible, hard working executives found a positive response to turn their classic stress response around.

Summary of 2015 Legislative Session and Advocacy Techniques
Saturday
1:00 - 2:00
Bonaire I

This presentation begins with a report on the Florida Developmental Disabilities Council’s 2015 Legislative Platform and all the legislative outcomes for individuals with developmental disabilities and their families from the 2015 Legislative Session. Advocacy techniques that were used will be illustrated for
self-advocates and their families so that they can understand how to advocate and how they can truly have an impact on the process. Preparation for the 2016 Legislative session and other advocacy techniques for participants will be included to encourage those who want to learn about the legislative process and educate their legislators about the needs of individuals with developmental disabilities.

Getting to Know the Division of Blind Services
Saturday
1:00 - 2:00
Bonaire 2

The mission of the Division of Blind Services is to ensure blind and visually-impaired Floridians have the tools, support, and opportunity to achieve success. Attendees will learn about the Division of Blind Services (DBS) and the programs and services that are available to Floridians who are blind or visually impaired. This session is presented by the division’s director, Robert Lee Doyle, III, who joined the Department of Education and the Division of Blind Services July 15, 2013. As director, he oversees services to individuals who are blind or visually impaired through 10 district offices, the Rehabilitation Center for the Blind, the Braille and Talking Books Library, and local community rehabilitation programs. The division serves Floridians of all ages, from babies to senior citizens.

NAMI Family-to-Family
Saturday
1:00 - 2:00
Bonaire 3

The Family-to-Family course consists of a series of classes for family members of adults with serious and persistent mental illness, as well as those whose behaviors suggest such a diagnosis. It is designed to help families face the challenges of brain disorders and find support, resources, and coping strategies. The course is provided free of charge. Family-to-Family is an experiential education course on mental illness that meets twelve weeks, two and a half hours per week. The course uses a combination of lectures, interactive exercises, and group processes. The curriculum consists of Brain Biology, Schizophrenia, Major Depression, Mania and Schizo-Affective Disorder, Mood Disorders, Basics about the Brain, Problem-Solving Skills, Medication Review, Empathy and Understanding, Communication Skills, Self-Care, and Recovery.

Jeremy’s Journey
Saturday
1:00 - 2:00
Bonaire 5

Presented by an Early Steps Family Resource Specialist, this workshop will share a personal story about Jeremy, who had a brain bleed prior to birth and was not expected to live. He is now almost 14 years old and has defied the odds in regards to medical challenges and developmental milestones. His Mom (and Jeremy) will share their triumphs and experiences learned with navigating Early Intervention, Medical Insurance, SSI, and IDEA. Jeremy is a young man who has Hydrocephalus, Cerebral Palsy, and Epilepsy. Come and be inspired and learn the ropes of how to advocate and collaborate to help your child with special needs.

What is Your Child Doing After High School? Mine is Going to College
Saturday
1:00 - 2:00
Bonaire 7

In past years college was rarely an option for young adults with intellectual and developmental disabilities (IDD). Now college is a very real possibility for many of our children with IDD. This presentation will provide information on available post-secondary education opportunities for young adults with IDD and ways in which families can begin to prepare their children for college. The Arc Jacksonville On-Campus Transition Program at the University of North Florida (OCT) provides experiential learning, peer supports, and community inclusion, and is one of over 220 post-secondary education options for young adults with IDD available nation-wide.

Transitioning into The Real World
Saturday
1:00 - 2:00
Bonaire 8

Figuring out what path is right after high school can be difficult. Do you go to college, go to a trade school, or go directly into work? Come join some of The Florida Youth Council Members as they share what went well, what went poorly, and how they became more independent. They will share advice and ideas on how to take care of yourself. At the end, you will have a chance to ask them questions so that you can better prepare yourself for the real world.

Sound Healing Meditation Journey
Saturday
1:00 - 2:00
Caribbean Ballroom I

Join drummer and sound healer Jeff Deen of Drumming for Wellness on this experiential journey into the power of sound and rhythm as tools for transformation of consciousness and as tools for healing the body. Experience which frequencies resonate with your current energy state and your desired energy state. We will be focusing on specific intentions, amplified by sound, in order to reprogram the cellular memories of our bodies. We will be using rhythm, mantra chanting, toning, and movement to activate your energy system. You will be given tools and techniques that you can apply at home to continue upgrading your energy system through sound and intention. Get ready to resonate, reverberate, and reprogram.

Strategies for Communicating about IEPs

Saturday
1:00 - 2:00
Curacao 3

Communicating with school staff members about your child’s Individualized Education Program (IEP) can be challenging for military families who relocate on a regular basis. Legal terms such as “Eligibility,” “Comparable Services,” “Portability,” and “Dispute Resolution” may make the IEP meeting confusing. Find out about the basics of IEPs and available resources to help parents know what information to provide, what questions to ask, and how to enhance communication with school staff to effectively plan for your child’s needs before and after moving to a new location.

Getting Ready: Preparing for Independent Living in the Community
Saturday
1:00 - 2:00
Curacao 5

In this presentation, panelists will share information about how to prepare for independent living in the community. Attendees will learn about the various stages in the journey to independence, spanning from school age to adulthood. Panelists will share information and valuable tips on: skills needed for independent living in inclusive settings, programs for developing those skills, the connection between employment and independent living, how to save for a home while maintaining benefits, how to connect with other self-advocates who are preparing for independent living, and where to learn more.

Enhancing Reading Skills: Helping my Child with Reading Comprehension
Saturday
1:00 - 2:00
Curacao 6

Children who struggle with reading have difficulty understanding what they read. When children do not understand what they read, it becomes challenging for them to embrace reading. In this session, parents will gain practical knowledge about the meaningful strategies that proficient readers use, based on the 7 Keys to Comprehension: How to Help Your Kids Read it and Get It, by Susan Zimmerman.
Parents will engage in hands-on activities to support the school-to-home connection in reading.

**Part II: Your Winning Ticket: Making Work Pay - Understanding Vocational Rehabilitation, Social Security, Medicare, and Medicaid**  
Saturday  
1:00 - 2:00  
Curacao 7

In this session we will discuss the options for gaining employment for persons with disabilities and how earned income impacts SSDI, SSI, Medicare, Medicaid, and Medicaid Waivers. Experts from Vocational Rehabilitation and DCF/ACCESS will discuss how benefits are impacted and how the use of trusts can maintain Medicaid eligibility. The session will also discuss the importance of partnerships and collaboration in navigating the complex state and federal systems with the ultimate goal of making you a more effective advocate and advisor. This session will increase your ability to advise and plan for the future of your consumers by helping you to understand how the same employment earnings impact each type of public benefit differently.

**Pregnancy and Parenting with a Disability**  
Saturday  
1:00 - 2:00  
Curacao 8

Spend time with Christinne Rudd for an inspiring story of overcoming obstacles in her path because of Cerebral Palsy, from doctors saying she’d never make anything of herself, to graduating from UCF, first with a Bachelor’s in Legal Studies, then a Master’s in Criminal Justice. She’ll discuss being pregnant and the reaction she received from the public and healthcare providers. She’ll share how each stage of her pregnancy affected her mobility, and the joys of parenting. You’ll learn how she’s able to meet her son’s needs despite her limitations. After this session you’ll approach things like you never did before.

The Changing Face of Benefits: Knowledge for Successful Employment and Asset Development
Saturday
2:30 - 3:30
Antigua 1 & 2

Choosing work is an important decision that requires good information about Social Security disability benefits (SSDI and SSI) and the impact of work on both Social Security and Medicaid/Medicare benefits. Work is an important step towards participating in the economic mainstream and achieving one’s financial goals. Join us to learn about the Florida Developmental Disabilities Council’s (FDDC) FREE online course The Changing Face of Benefits, www.floridabenefits.org, available in both English and Spanish. The Changing Face of Benefits, www.floridabenefits.org, will build your understanding of Social Security disability benefits, SSDI/SSI work incentives, and strategies to improve your financial capability.

High School and Beyond: Things to Know About Transitioning to Adulthood
Saturday
2:30 - 3:30
Antigua 3 & 4

This presentation highlights the major challenges involved with post high school life. We will be addressing key issues surrounding transition: law changes, self-advocacy, executive functioning, independent living, and social skills. The purpose of this presentation is to provide key information about the changes after a student ages out at 18 or 22, and provides a forum for parents and service providers to discuss their various needs and ways they addressed those needs. Attendees will be able to identify key differences between IDEA entitlement and ADA eligibility, develop a strategy for disclosure, identify executive functions and how to improve them, list independent living skills, and explore differences in social environments as compared to high school.

Shaping Behavior with Apps for iPad
Saturday
2:30 - 3:30
Boca I

This workshop will help parents use iPad apps to shape their child’s behavior. There are many apps available to use for scheduling, timers, rewards, and organization. This will be especially helpful for parents with children with Attention Deficit Hyperactivity Disorder (ADD or ADHD), Autism (ASD), Asperger’s, Specific Learning Disability (SLD), or Emotional Behavioral Disability (EBD). So bring your iPad and let’s find the apps!
Is a Service Dog Right for Me—Should I Go Through an Organization or Train My Own?
Saturday
2:30 - 3:30
Boca II

We will discuss the pros and cons of having a service dog, and help you determine if this is the right solution for you. We will discuss some different options you want to investigate when deciding how and where you get your service dog, such as from a service dog organization or training your own service dog.

The Impact of Aging Issues on Individuals with Intellectual and Developmental Disabilities
Saturday
2:30 - 3:30
Boca III

Parents who care for their older child with I/DD are experiencing triple stress: caring for their child with I/DD when they were younger, now caring for them as they are experiencing aging, and their own aging along with their spouse, with the potential for dementia. It is important the older caregiver is aware of these changes. This presentation will provide an overview of aging, how the aging interacts with the older child with I/DD, and how medications may negatively influence aging of the older adult with I/DD.

Teamwork: The Framework to the Puzzle of Greater Healthcare Outcomes

Saturday
2:30 - 3:30
Boca V

Communication and teamwork are two key components among many in helping a person reach their greatest potential, both as an individual and in their overall healthcare, especially for individuals with disabilities and complex medical needs. In this session, you will hear from not only individuals with disabilities, but a variety of healthcare professionals in a panel discussion on how each person has a unique piece in working together in helping and providing resources needed to help all people reach their goals and dreams as well as level independence despite their individual challenges.

Live Demonstration of Bilateral Stimulation for Physical and Emotional Health

Saturday
2:30 - 3:30
Boca VII

This presentation is designed to demonstrate the full range of healing available through bilateral stimulation including relaxation, pain reduction, stress management, increased focus, and trauma resolution. Participants will learn how to apply the strategy to reduce stress, increase coping skills, relaxation, and goal achievement. Participants will be able to practice these skills and apply them to daily challenges.
Fibromyalgia & Chronic Fatigue Syndrome: How Can I Best Manage My Symptoms?
Saturday
2:30 - 3:30
Boca VIII

This presentation will review many different treatment methods and their relative effectiveness. This will be a discussion about the FDA-approved medicines for the treatment of fibromyalgia, and the known possible side effects noted in TV commercials and magazine advertisements. Direct involvement by the audience is encouraged so that we learn from others who are in the pursuit of a quality life with FMS/CFS, especially from those with FMS/CFS who are still working. Handouts will be provided to the attendees, and there will be a voluntary, short survey at the end of the presentation.

Self-Advocacy 101
Saturday
2:30 - 3:30
Bonaire 1

This session aims to provide a “how to” guide for budding self-advocates and those in their circle of support who want to learn the nuts and bolts of how to advocate for themselves. The session will help participants to understand how to identify issues and decision-makers who will help them become an active part of the problem-solving process. The interactive session will also give tips on how to effectively communicate with allies to get the desired results.

Defining Positive Behavior Support
Saturday
2:30 - 3:30
Bonaire 2

Positive behavior support (PBS) is a term that is increasingly discussed in educational and community settings, but is unfortunately associated with particular misconceptions. These include for whom PBS is appropriate, when and where it should be utilized, who should be involved, what exactly it entails, and how it is best implemented. In this presentation, we will share some common misunderstandings and provide clarification in practical, useful terms based on the extensive literature that exists about PBS. Participants will be encouraged to engage in the discussion and pose questions and concerns.
Richard Chapman is an active self-advocate in the state of Florida and believes that all individuals have the right to live, work, and play in the community of their choice and have the supports necessary to succeed in life. He believes that you can do anything that you can put your mind to. This engaging and motivational presentation is filled with images from his personal story, his story as a Mental Health Counselor and as a Disability Rights Advocate working for a fully inclusive society. Richard will give his audience the opportunity to listen to a fresh perspective from someone who not only “talks the talk,” but “walks the walk.”

richardchapman829@gmail.com

This session is an open discussion session for dads. The session gives fathers the opportunity to bring issues and topics related to raising a child with special needs to the session and talk them through with each other. The session provides an opportunity for fathers to discuss their concerns with other dads who are experiencing many of the same issues and to see how other dads are dealing with them.

Presented by an Early Steps Family Resource Specialist, this workshop will help parents who have children birth to five years old get a jumpstart on finding and accessing resources in their local community and beyond. We will also share personal experiences and thinking ‘outside of the box’ with how systems work (Early Intervention, IDEA, Insurannce, SSI, etc.) and making the system work to benefit you and your family. Our experience comes from walking the path a few steps ahead of you and sharing our stories.

Accessing Resources and Understanding Systems
Saturday
2:30 - 3:30
Bonaire 5
Join the Revolution: Start a 4-H Club at your School ESE or Group ESE
Saturday
2:30 - 3:30
Bonaire 6

Youth involved in 4-H have been making a difference for over 100 years. Over 230,000 boys and girls from age 5-18 participate in community and school clubs throughout Florida. Youth with special needs in a school or group ESE program can participate until age 21. Youth learn citizenship, explore life skills through over 100 projects, and have FUN doing it! Project areas include animals, gardening, sewing, photography, robotics, visual arts, and much, much more. Join us today to experience a 4-H Club meeting, with a sample lesson from a project. Gather your friends and join us for a fun time!

Hidden Heroes: Caregiving Youth
Saturday
2:30 - 3:30
Bonaire 7

More than 1.3 million youth assist family members who are ill, injured, frail, or disabled. As a result of their role at home, these hidden children sacrifice their education, health, well-being, and childhood. This presentation will describe caregiving by youth and the role that he/she plays in family and society. Highlights of the successful Caregiving Youth Project which supports students in school, out-of-school, and at home will be shared. Participants will learn how the greater community can assist this population.

Assistive Technology Used by Youth
Saturday
2:30 - 3:30
Bonaire 8

Assistive technology is used by many youth with disabilities. In this session, the members of The Florida Youth Council would like to share with you some assistive technology they use in their lives and give you more information on what technology may be right for you and where to find it.
Project Unify – Special Olympics of Florida
Saturday 2:30 - 3:30 Curacao 1

This presentation will highlight Special Olympics Florida, Project UNIFY activities that foster inclusion in schools. The project is an education-based project that uses sports and education programs to activate young people (non-disabled and disabled students) to develop school communities where all youth are agents of change. In the last year, Project UNIFY has hosted events on school campuses across Florida promoting respect, dignity, friendship, and advocacy for people with intellectual disabilities. Using photos, video, and testimony from school administration, this presentation will provide a variety of activities that can be held on any school campus, including respect rallies, R-Word pledge drives, unified sports field days, and unified student clubs that mainstream student groups.

The Impact of Traumatic Events on Children and Their Families
Saturday 2:30 - 3:30 Curacao 2

Traumatic events can be naturally occurring or produced by humans. Some are sudden and unpredictable, while some weather events, such as hurricanes, give us time to ponder the impact. Whenever these events occur they can have significant negative impacts on children and their families. This workshop explores types of traumatic events and the after effects of trauma. Additionally, ideas and steps that can be taken to mitigate the impact of these events will be explored.

Resources for Military Families
Saturday 2:30 - 3:30 Curacao 3

Come and learn about military-based resources available for Florida military families who have children with special health care needs. Resources are available statewide from a host of service providers. We are here to support you!
Unlock the Doors to Employment: Keys Available through YOUR CareerSource Network
Saturday
2:30 - 3:30
Curacao 4

Employment opportunities are critical to the success of Florida’s citizens. Florida’s CareerSource Network and its partners provide a dynamic statewide workforce system that aims to meet the needs of jobseekers and employers. This workshop will provide an overview of Florida’s workforce system, the role of Disability Specialists, and discuss strategies to build effective partnerships with the local workforce boards and improve access to workforce services available in your community. At the conclusion of this session, participants will be familiar with the structure of Florida’s workforce system and the services available to assist all Floridians to get back to work.

Living in the Community: Residential Options for Floridians with Disabilities
Saturday
2:30 - 3:30
Curacao 5

In this panel presentation, panelists will share success stories about independent living in the community. Attendees will learn how the panelists overcame obstacles and learned from their experiences. Panelists will share information and valuable tips on: evaluating what is right for you along a continuum of residential options, support services for living in inclusive settings, finding a home that is affordable, how to make a home accessible, how to connect with other self-advocates who are living in inclusive settings, and where to learn more.

De Padres a Padres
Saturday
2:30 - 3:30
Curacao 6

¡Qué bien nos sentimos cuando podemos compartir nuestra experiencia con otros padres de niños con necesidades especiales. Podemos aprender, reír y hacer nuevas amistades. Aquí está tu oportunidad de experimentar todo esto y mucho más. Le invitamos a unirse a nosotros para una corta presentación seguido de una charla informal, interactiva y relajante; donde hablaremos de nuestras experiencias y los asuntos que nos preocupan o nos interesan. ¡Te esperamos en nuestro grupo “De Padres a Padres” en español!
This session will be based on one person’s experience as an individual with a severe disability. You will hear what has worked and what didn’t work, which will help you develop a plan for yourself. Some of the topics covered will include how to benefit fully from services that are available and knowing what those services are (i.e. Supported Living, Life Skills Development 1, 2, & 3, Respite, and the iBudget). You will also hear about how to self-advocate and what rights you are entitled to.

Guardianships—Why They are Necessary and How to Avoid Them  
Saturday  
4:00 - 5:00  
Antigua 1 & 2

What are guardianships and why are they necessary? Most people do not have a proper estate plan in place and will ultimately be required to seek court intervention to assist a loved one who becomes incapacitated or a minor who inherits more than $15,000. The court will require a guardianship. Obtaining a guardianship for a loved one can be a daunting and expensive task without sufficient information and proper representation. Attendees will learn when guardianships are necessary and how they may be avoided.

Secondary Transition in Florida—Project 10: Transition Education Network and Project 10 Sting Ray  
Saturday  
4:00 - 5:00  
Antigua 3 & 4

This presentation will review the resources available through Project 10, including strategies and initiatives such as capacity building, interagency collaboration, transition legislation and policy development, and student development and outcomes. In addition, an overview of Project STING RAY will be provided, including the curriculum framework as well as information about how students are supported on campus through mentorships, internships, community engagement, and technology. A student in the STING RAY program will co-present and share their experiences in the program.

Working with Children on the Autism Spectrum  
Saturday  
4:00 - 5:00  
Boca I

This workshop will help parents that have students with ASD (Autism Spectrum Disorder). We will focus on what the students CAN do and build on their strengths using the works of Temple Grandin. We will discuss things such as behavior issues, sensory issues, problems making friends, and being bullied. In addition, we will talk about strategies we can use to help our kids with ASD be successful in school!

Advocating for Students with Invisible Disabilities
Saturday
4:00 - 5:00
Boca II

The law is clear that students with invisible disabilities—including Asperger’s, ADHD, and chronic medical conditions—can be entitled to accommodations, supports and services, and are protected from discrimination in school. This workshop will discuss specific strategies that can be utilized for obtaining 504 or ESE eligibility, securing appropriate supports that meet these students’ unique needs, and helping the students transition to future education and work. We will review the decisions and regulatory guidance that require schools to meet all the educational needs of students with disabilities, even when they have satisfactory grades and test scores.

Small Steps Towards a Healthier Weight
Saturday
4:00 - 5:00
Boca III

Persons with disabilities may find it more difficult to control their weight because they may not have independent choice in selecting the foods they eat. In addition, physical limitations may reduce their ability to exercise regularly. Due to disability-related limitations some people may lack the time, energy or ability to prepare healthy meals. They also may need to take medications that can contribute to weight gain. Good nutrition may be a major challenge for persons who have difficulty chewing and swallowing.

Despite these barriers, persons with disabilities can achieve a healthy lifestyle that includes proper nutrition and moderate exercise. Recent research has shown that even small lifestyle changes can make dramatic differences. This presentation will provide general tips and tools for incorporating healthy lifestyle choices for persons with disabilities and their caretakers.

Airport Backstage Pass—Air Travel for Persons with Disabilities
Saturday
4:00 - 5:00
Boca IV

Did you know that when a person with a disability travels by air about 15 airline employees come in contact with their travel experience? With the right tools and the understanding how airlines and airports function, a person with a disability can manage their own travel experience without a lot of stress or frustration. Over 15 million people with disabilities traveled on US air carriers in 2013. This may be the year you venture out and see the world on your own terms. Because people with disabilities have other things to consider, this presentation will focus on what to expect at every step along the travel ribbon and what to do if you experience issues or problems. Participants will learn what to expect when
they travel on Delta, who to contact and how to plan, prepare and anticipate some of the challenges we all face when traveling by air.

**Can My Dog be a Service Dog?**

Saturday  
4:00 - 5:00  
Boca V

The Federal government protects those individuals who have severe impairments of one or more of life's major functions and the laws that cover various aspects of our lives. The federal government does not regulate trainers, training, clothing, nor the quantity nor quality of training that service animals receive. The typical service dog has been through 2 years from birth to certification, however not all service dogs require this amount of training. We will explore various professional versus non-professional situations. Why does the public not respect my self-trained service dog?

One Tool for Successful Interactions with Police: The Wallet Card

Saturday
4:00 - 5:00
Bonaire 1

This is a training for high-functioning teenagers and young adults with Autism Spectrum Disorders (ASD) or Intellectual/Developmental Disabilities (ID/DD) and their families about how to interact successfully with law enforcement. The presentation will introduce the Wallet Card, one of Disability Independence Group’s signature projects, created in partnership with the Coral Gables Police Department and UM-NSU CARD. The purpose of the Wallet Card is to assist an individual who may have difficulties communicating or expressing themselves in an emergency situation and to assist first responders in identifying an individual’s disability-related needs to help them better understand the circumstances.

Improving Family Routines through Positive Behavior Support

Saturday
4:00 - 5:00
Bonaire 2

Positive behavior support (PBS) may best be conceptualized as a creative, collaborative problem-solving process for improving behavior. The basic principles of PBS can be applied to improve family routines that are commonly challenging such as meal times, community outings, homework, chores, transitions, bedtimes, and leisure activities. In this workshop, we will guide participants through a process of goal setting, analysis of variables affecting children’s behavior, and developing proactive, educational, and effective strategies for maximizing the quality of valued family routines.
Keeping the Behaviorally Challenged Student in School Learning
Saturday
4:00 - 5:00
Bonaire 3

Students with challenging behavior spend more time out of the classroom missing out on important instructional time. Many students are suspended for manifestations of their disability and the function of their behavior is often misunderstood. This presentation will focus on the student’s behavior, and when to request a Functional Behavior Assessment and Positive Behavior Intervention Plan. Also covered will be restraint and seclusion and how to keep your child safe. The presentation will allow for open dialogue between presenter and participants.

Letting Go: Time to Land the Helicopter
Saturday
4:00 - 5:00
Bonaire 4

The Letting Go workshop examines the importance of encouraging independence in a child with special needs. The workshop also discusses how hard it can be for parents to step back and offer the increasing levels of freedom to the child to allow the child to develop that independence. Finally, the training offers some ideas for parents in learning how to let go in a constructive fashion.

The New FSA’s (Florida State Assessments) and How Your Student is Impacted
Saturday
4:00 - 5:00
Bonaire 6

You may be asking yourself, “What do the new assessments look like and what will my child be expected to know?” This workshop will focus on the format of the new testing and the expectations required of your child. You will receive insight on how to help prepare your child for taking the assessment next year.

¿Cómo son necesidades de mi hijo está cumpliendo en el aula? Esta es una pregunta que muchos padres se preguntan. Las respuestas pueden ser descubiertos a través del aprendizaje sobre los sitios web y la información específica para ayudarle a saber qué conocimiento exactamente los maestros están compartiendo con su hijo. Una breve mirada a los diferentes estándares en términos reales de la gente y la forma en que se incorporan en el aula es un lugar útil para empezar.
Lourdes Quintana, Central FL Early Steps Director, along with Wilmaris Colon, a teen with two older brothers with Cerebral Palsy, and a panel of siblings will discuss what it is like growing up with a sibling who has special needs. They will share tips to assist families in helping all of their children. A member of the Florida Alliance for Sibling Advocates and Sib Shop information will also be present. Examples of children’s literature will also be shared that will help with family discussions. Questions will be welcome.

Martial arts has the unique ability to benefit everyone not only physically but in a number of different aspects that carry over into everyday life, from children to adults. For individuals with disabilities, the benefits are no different. However, as a whole, individuals with disabilities can benefit from martial arts as a means to increase balance, coordination, gaining greater self-esteem and independence, as well as life skills that are often not taught in the classroom or in today’s special education programs. Hear firsthand the experience of one martial arts program that has implemented a martial arts class for individuals with special abilities. Also, come take part in a brief demonstration of some of the adaptations

Pediatric Disaster Preparedness—Taking Care of Children with Special Needs in Times of Disaster
Saturday
4:00 - 5:00
Curacao 2

Disasters can occur any time and may be natural or caused by humans. This workshop explores Florida’s efforts to create an integrated network of care providers to ensure that the needs of children with special healthcare needs are met during disasters. Areas of the state impacted by disaster often lose resources, including primary child care centers. Ensuring collaboration, cooperation, and networking among Florida’s primary children hospitals during these critical events is essential to meeting the emotional and primary health needs of these children.

Helping My Child with Writing: Yes, It Can Be Fun and Easy!
Saturday
4:00 - 5:00
Curacao 5

Many students with disabilities experience challenges with writing. Writing is one of the most complex tasks that is included in school standards. In this session we will explore strategies, accommodations, and modifications to address these challenges that struggling or emergent writers face. Suggestions for at-home reinforcement and fun activities for writing will be provided. We will also take a look at and discuss some low-tech tools as a part of the assistive technology continuum.

The Parent-Teacher Connection—What’s That?!
Saturday
4:00 - 5:00
Curacao 6

Parents of children with special needs have experienced a multitude of issues with their child long before their child has his or her first educational experience. Teachers generally have little or no concept of the emotional highs and lows, the fears, decisions, hurdles and other experiences that the special needs family must navigate from the very beginning of their child’s life (or from the onset of an injury, accident or illness). However, if the parent and teacher can reach a mutual understanding that puts the child’s needs first, the parent-teacher connection will have been established. We will attempt to discuss the need for such a connection and how to achieve it from both the parent/guardian’s perspective and from the perspective of the teacher/therapist/professional working with your child.

Yes, You Can Plan and Direct Your Services
Saturday
4:00 - 5:00
Curacao 7

The purpose for this interactive presentation is to provide education on the importance of self-advocacy and share tips and ways to evaluate services received. The session will include a discussion of how services can be evaluated, questions individuals/families may want to ask your providers, and a role-playing session with individuals currently receiving services. It will also include information on Centers for Medicare and Medicaid’s (CMS) new expectations for service delivery.

Education Choice Options for Students with Disabilities
Saturday
4:00 - 5:00
Curacao 8

The choices for students with disabilities have grown exponentially over the past decade. Charter Schools, McKay Scholarships and the new Personal Learning Scholarship program have allowed parents to select options that best meet the needs of their child. This workshop will present an overview of the different educational choice options available, how to determine the best placement for your child, eligibility and steps for enrollment, how the different options are funded, and what is different about a “choice” option vs. a traditional public school.

10:30 a.m. to 12:30 p.m. Caribbean Ballroom

LIVES WORTH LIVING
Living with a disability in 2015 is, happily, much different than it was prior to the signing of the Americans with Disabilities Act in 1990. Much of the progress that has been made in ensuring equal civil rights for persons with disabilities is a direct result of the strength and support of families like ours. In the ‘40s and ‘50s it was the formation of The Parents Movement that propelled the call to end institutionalization for children and young adults, a call that was taken up by many organizations that ultimately coalesced into the “Disability Rights Movement.”

In July we celebrate the 25th anniversary of the signing of the ADA. In Lives Worth Living, the participants in this fight for equal rights tell their own history—how the largest minority rose out of the shadows and institutions and became full participants in everyday life. Younger generations do not know about this fight, so it is our job to educate them and pass on the torch of advocacy and inclusion for all.

DUCK RACE
During The Family Café, purchase your little rubber ducks (just like the one in your bathtub) at the Florida Disabled Outdoors Association booth. FDOA will keep the ducks all together and you will be provided with your duck number. At 9:30 AM, the ducks will be placed in the river at the starting line and float down the river to the finish line. If your duck is one of the winners, you will be one of the lucky recipients of an amazing prize. Prizes include Gatorland passes, a giant floating duck, and more! There are only 500 ducks, so don’t miss your chance!!

8:00 a.m. to 1:00 p.m.     Exhibit Hall Open, Grand Sierra Ballroom
9:30 a.m. to 10:30 a.m.    Rubber Duck Race, Large Pool
10:30 a.m. to 12:30 p.m.   Keynote Address, Caribbean Ballroom
12:30 p.m. to 1:00 p.m.    Closing and Door Prizes, Caribbean Ballroom
Brazilian Voices
Brazilian Voices, a non-profit organization, is a women’s vocal ensemble that performs at cultural community and philanthropic events. Brazilian Voices aspires to incorporate the best of Brazilian culture throughout the world. It has won the coveted International Brazilian Press Award for the past 10 years. Four years ago, they expanded their mission, creating an arts and healing group. They sing in hospitals and nursing homes, bringing hope and healing to patients at bed-side. See the Brazilian Voices Friday at 4:00 and 5:30 and Saturday at 10:30 in the Boca Foyer.

Pyramid Players
Long-time Café favorites, The Pyramid Players, are back for the 8th consecutive year. Four song and dance ensembles, from Tampa, Tallahassee, Fort Walton Beach and Pensacola, will captivate Café participants between sessions on Friday and Saturday. You don’t want to miss these tributes to the abilities of people with Intellectual and Developmental Disabilities. See the Pyramid Players Friday and Saturday between sessions in the Grand Sierra Foyer.

Royal DJs
The Royal DJs are a group of differently-abled DJs who love to play tunes for others. They live in South Florida and their mission is to spread a message of happiness, inclusion, acceptance, and positivity. Music is a universal language and connects us all! Please ‘like’ the ROYAL DJs on FACEBOOK to find out more. For gigs call (561) 665-1066 or message us on Facebook. See the Royal DJs Friday at 2:30 in the Boca Foyer, Saturday at 10:30 in the Grand Sierra Foyer and 3:30 in the Boca Foyer.

FRIENDS Choir
FRIENDS Choir is a music program for students with significant intellectual disabilities in Martin County. The singers come from 6 schools to Jensen Beach High School every week to practice. There are 10-15 typical students that assist at practice times. The goals for FRIENDS are:

- A place to exhibit the talents and abilities of students with disabilities
- A social atmosphere to get to know and learn about other students
- An awareness for others to see and appreciate what people with disabilities CAN do

FRIENDS began in 1989 and has grown consistently through the last 25 years. See the FRIENDS Choir Saturday at 12:30 and 2:00 in the Boca Foyer.

“Just Moving” Dancers
“Just Moving” was created to offer people with intellectual disabilities more choices and an opportunity to learn ballroom dancing. It gives them a place to gather, laugh and meet new friends.

The instructors and volunteers have witnessed overall improvement in social skills, increased confidence, and happiness.

We are here to make a difference one dance at a time. See the “Just Moving” Dancers Saturday at 2:00 and 5:00 in the Caribbean Foyer.
**Arts & Crafts**

VSA Florida presents some arts and crafts for all ages and abilities. Come have fun and learn about some new art things. Come make a clay plaque with a saying on it. Learn how to make a bead necklace or color a little wooden car. Presented by Lori Emly, VSA Brevard and VSA Florida. Visit Hibiscus between 1:00 and 5:00 on Saturday.

**Elsa**

Give your little one a day to always cherish with a real life princess or fairy! Look for Elsa between 3:00 and 4:00 on Saturday.

**Santa Claus**

Be on the lookout for Santa on Saturday from 2:00 to 4:00.

**Spider-Man**

For any Family Friendly Events, The Tampa Spider-Man is there! Look for him on Saturday!

**Ms. Wheelchair Florida – Sarah Gaver**

Come see Ms. Wheelchair Florida 2015 throughout the weekend in the Exhibit Hall! Look for Ms. Wheelchair Florida in the Grand Sierra Ballroom all day Friday and Saturday.

Get ready to dance all night with DJ Scully. Looking to continue the tradition of non-stop dancing and fun, DJ Scully will bring his hi-energy music selections to the 2015 Family Cafe! 7:00-9:00 in Caribbean Ballroom

**Line Dances**

WellCare (HMO SNP) is a Medicare Advantage organization with a Medicare contract and a contract with the Florida Medicaid program. Enrollment in WellCare (HMO SNP) depends on contract renewal. The benefit information provided is a brief summary, not a complete description of benefits. For more information contact the plan. Limitations, co-payments and restrictions may apply. Benefits, formulary, pharmacy network, provider network, premium and/or co-payments/coinsurance may change on January 1 of each year. You must continue to pay your Medicare Part B premium. If you meet certain eligibility requirements for both Medicare and Medicaid, your Part B premiums may be covered in full. Some plans are available to those who have medical assistance from both the state and Medicare. Premiums, co-pays, coinsurance and deductibles may vary based on the level of Extra Help you receive. Please contact the plan for further details. WellCare uses a formulary. There is no obligation to enroll. A variety of Medicare Advantage, Part D and Special Needs plans may be discussed.
